

Dynamic Engineers Inc.

2550 Gray Falls Dr., Suite#128, Houston, TX, 77077 USA TEL: 1-281-870-8822 EMAIL: Sales@DynamicEng.com

Features and Benefits

Frequency range: 300MHz Supply voltage: 3.3V Steady current: 55mA Typ. Output waveform: PECL Frequency stability vs. operating temperature: ±1.0ppm Aging: ±2.0ppm first year Phase noise@10KHz: -102dBc/Hz Operating temperature: -40°C to +85°C Size: 3.2x2.5x1.6 mm

Typical Applications

Frequency reference for real time clocks (RTCs) Portable instruments Timing synchronization for networks, servers, hubs, routers and switches Smart metering, data loggers GPS receivers. Telematics

Description

TCXO3225BL-FD-300MHz-A-V is designed for applications where exceptional frequency stability and timing is required. It has both excellent temperature performance and short-term stability. These characteristics make it an excellent choice for timing applications.

Mechanical Drawing & Pin Connections

Drawing No: MD240002-1
